

Tips on Using the Family Group Record

It's important to be as accurate as possible, especially as to complete names and relationships.

Always try to provide complete information about each individual:

- **Birth:** Date, Place (City, County, Country, etc.).
- **Baptized/Christened:** Date, Place Date, Place (City, County, Country, etc.), Church, and Religion.
- **Died:** Date, Place (City, County, Country, etc.).
- **Buried:** Date, Place (City, County, Country, etc.), Cemetery.
- **Married:** Date, Place (City, County, Country, etc.), Church.
- Children of each Family Group are listed on pages 2 & 3.
- Each child of a Family Group who is married requires a new Family Group Record.

Make as many Family Group Records as you need.
